To whom it may concern.

Reference: Workspace

The FIA developed a requirement for a face lift at their national office at Empire Road 51 in Parkview Johannesburg.

Pippa Rogers of Workspace was recommended by a senior member of the FIA who executed a similar project with Workspace.

Our project with Workspace turned out to be a great success.

- Prompt response
- Very creative in design
- Project execution was professional and completed as promised
- Detail costs were presented in well set out quotations.

Workplace is certainly a service provider of quality and integrity and can be highly recommended for office redesign projects.

A handwritten signature in black ink, appearing to read 'Booyesen', with a stylized flourish at the end.

Manie Booysen
CEO
