

Hospitality Technology International

5th November 2015

To whom it may concern,

H.T.I. is a fast growing and ever changing organisation and as such, we've needed to optimise and redesign our space numerous times over recent years.

What was a cramped, old fashioned office space has been transformed into a more space efficient, colourful, modern and generally fun place for our employees to spend their days thanks to Pippa and her team.

WorkSpaceDesign has far exceeded our expectations time and time again with their creativity and attention to detail. Charlene, in particular, has gone above and beyond to understand our business requirements and adapt her designs to fit the "personality" of each department within H.T.I.

I don't hesitate for a second to recommend WorkSpaceDesign. Big or small they have taken on every project with the greatest enthusiasm and professionalism – and we do look forward to working with them again in the future!

Regards,

A handwritten signature in black ink, appearing to read 'S. Byl', with a stylized flourish at the end.
