

To Whom It May Concern

Dear Sir/Madam

**Reference – Workspace Design**

In 2015/16 we had the privilege of working with Pippa Rogers and her team of Professionals. They were appointed amongst some top contenders for the design and furnishing of our new Corporate Offices.

From the outset we knew that we had without any doubt made the right decision, as we were dealing with people that did not just know what they were doing, but they also had a passion for their work and this showed in what was ultimately delivered.

The attention to detail and spending many hours working until the perfect product was manufactured, installed and presented was a sign of their abilities and knowing to deliver what the clients ultimately wishes to have and achieve.

The Landlord of our office complex used our offices as their 'unofficial showroom' showcasing to other prospective tenants.

It was a pleasure being a client of this remarkable team and we will recommend them to anyone at any time, and we will not hesitate working with them again in future.

Yours Sincerely

**Herman Fleischmann**  
Chief Executive Officer
